REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claim 1, discloses in part a calibration process to determine an exact trajectory of a golf ball and a way to compensate for measurement errors that are caused by optical distortions, misalignment, or positional variance of the recording devices. Next, the claim discloses measuring the position and angle of a light reflective material, which represents the putter. The system then displays corrected information to improve the putting stroke.

Prior art Nesbit does not disclose the calibration feature as taught by independent claim 1.

The calibration means taught by Teggett does not teach the same features as taught by the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
